Summary

Dedicated B.Tech IT undergraduate with a strong foundation in full stack web development and a passion for problem-solving. Proficient in both front-end and back-end technologies. I prioritize collaboration, effective communication and continuous learning. Eager to apply my technical expertise and innovative mindset to build scalable, high-quality web application that meet industry standards.

Skills

Programming Language: Java, JavaScript

Web Technologies: HTML, CSS

Tools: Git, GitHub, Postman

Framework & Library : React, Express.js, Node.js, TailwindCSS

IT Constructs: OOP (Object-Oriented Programming)

Database System: MongoDB

Projects

StudyNotion – An Ed-Tech Platform | ([Link](#))

2025

- Developed a fully functional Ed-Tech platform using MERN stack (**ReactJs, Node.js, Express.js, MongoDB**).
- It enables users to create, consume and rate educational content with interactive UI.
- All the essentials like user **authorization, authentication (JWT Authentication)** and password **Encryption/Decryption**.
- Build responsive pages for **Students** (course list, cart and course content) and **Instructor** (dashboard and course management).
- Integrated **Razorpay** for subscription-based payment model.

Weather Application | ([Link](#))

2024

- Developed a cloud-based weather application using **HTML, CSS** and **JavaScript**.
- Third party weather APIs for accurate and up-to-date weather information.
- Show real-time weather condition for specific location including **temperature, humidity, wind speed** and a description ("Sunny", "Cloudy" and "Rainy").
- Allow users to enter a city name or use their current location (via geolocation API) to fetch weather data.

File-Uploader Application | ([Link](#))

2024

- It is a **Node.js** server application that allow users to upload images and videos to the server.
- The uploaded files are then stored on **Cloudinary**, a cloud-based images and video management service.
- This Application also **sends an email** to the user who upload the file containing a link to the uploaded file.

Password Generator | ([Link](#))

2024

- Build a Password Generator web application using **HTML, CSS** and **JavaScript**.
- Enabled **customizable password options** (length, case, number, special characters).
- Real-time feedback on the **strength** of the generated password (**weak, strong and good**).

Achievements

- **Java** certificate by **PW Skills** which includes learning concepts of java. | ([view](#))
- **TCS Ion Career Edge-Young Professional:** Gained skills in career readiness, workplace professionalism and business communication. | ([view](#))
- **Mern Stack** development certificate from **CodeHelp** by Love Babbar. | ([view](#))
- I got a Certificate of **Meritorious Student Encouragement Scheme** year 2020 with cash prize from the Honorable **Chief Minister**. ([view](#))

Education

Mahakal Institute of Technology

- Bachelor of Engineering in information technology
- CGPA: **7.68**

2021 - 2025

Ujjain, Madhya Pradesh

Mahadji Scindia School

- Higher Secondary Education
- Percentage: **85.6**

2019 - 2020

Ujjain, Madhya Pradesh

Mahadji Scindia School

- Secondary Education
- Percentage: **86.6**

2017 - 2018

Ujjain, Madhya Pradesh
